GOD'S EXISTENCE FROM ETERNITY TO ETERNITY

ANY DOUBT ABOUT GOD THE CREATOR ?

Although there is nothing so very conspicuous in the whole Universe ☐ seen and unseen - as the Existence of God the One, He is being totally denied by thousands. Indeed that Existence is as undeniable as their denial is unprovable.

Most obviously, not any single unit, nor any atom, in all the worlds had existed before Creation, or shall exist after its end. Createdness is written large upon everything whatsoever. And that demands essentially the presence of the Creator, who is none but God Alone. He Alone does exist since Eternity to Eternity, as the Sole Creator of all else.

For all their vehement denial of God's Conspicuous Existence, this fact is indelibly ingrained into every human instinct. Hence, no doubt it at all.

Everything whatsoever is a living testimony to God's Existence. We could see no object but must see God before it, His Existence being that overwhelming.

HAS GOD CREATED ALL THIS IN VAIN ?

That is what most people think, as a result of their Disbelief in God. For, were they to believe in Him as the Sole Creator and Controller of the Universe, they could perceive the wonderful harmony and order found throughout His entire Creation, and the Mighty Purpose behind it. They would get firmly convinced that all this is Perfect Truth, and not at all this is False, or In Vain.

They would then realise that God has made them solely to obey His Commandments as their One True Lord. They would never doubt the coming Afterlife of Eternal Hell and Eternal Heaven to which they are fast repairing - to be rewarded or punished there for ever. All this is the result of Pure Faith as such.

Without this Living Faith in God, people are bound to be mere animals having no Common Sense. They could not think of God, nor could they remember Him and His Appointed Day of Resurrection. Whereas, they never ought to forget Him and His Fateful Day for one single moment.

BOOKS OF SCIENCE

As a living proof of Man's total forgetfulness of God and the man's total forgetfulness of God and the after-life, we might well read books like *"The Encyclopedia of Space Travel and Astronomy"*, Octopus books Limited, London 1979, pp. 224.

In this book leading astronomers and science writers have summarized all the current knowledge about the Solar System, the Galaxies and the Universe ☐ all God's Own Creations, first and last.

Yet these learned writers do not mention God anywhere in its pages, except only once most casually. That too when faced with a tough problem they could not answer. Namely, the Beginning and End of this Universe, which, according to them, began to expand by a supposed event called the 'Big Bang'.

"But what was there before the Big Bang, and what is the fate of the Universe?", they are asking in bewilderment. It is while replying to this straight question that they are forced to recollect God and say: "It is possible that the Beginning can only be explained by a 'rediscovery of God', and that the End will be infinite dissipation in an infinite void". (See pages 133 and 143).

Thus, as a last resort, they are compelled to remember God as the Original Creator of the Universe. Otherwise, they could conveniently afford to forget Him!

Oh God! What a strange logic this! Is that supreme Creator Lord so utterly worthless, while His helpless creation so highly? Is it fit and proper, by any means, to engross ourselves with such an all-embracing discussion about the Universe ☐ a product of matter ☐ and disregard its Unique Maker? How extremely true its very opposite! I.e., fully know and worship Him as if actually seeing Him; or at least, He is seeing them.

THE PATENT TRUTH

As intelligent rationalists, upon beholding God's wonderful creations, we could not help turning to God Alone imploring: "O our Lord! Thou hast not created all this in vain ☐ far from it! All is absolutely True! And even so shall be Thine Re-creation ☐ Thine Heaven and Hell. pray, O Lord! Guard us from the Hell-Fire ☐ the utter disgrace on the Day of Resurrection. Pardon us, O Lord! our sins, and admit us to Thine Heaven, along with the Pious Ones!"

Of course, we are always going to

reflect upon God's Universe, which is full of its Mighty Maker's Portents. Certainly, Creation leads us to the Creator. We are not, however, going to stop short with the Universe and its mysteries, as done by the scientists.

For, God has made everything on earth for us human beings, and has made us, in turn, to serve Him Alone. That is the irrevocable, patent Truth.

IMAGINE GOD'S MIGHTY THRONE

Is it not far too proper, too important, to busy ourselves with God, rather than His Universe? Even so, we could not penetrate into its innermost regions. For, the Universe consists of seven heavens above one another, besides this visible earth and sky. Whereas, compared to God's Mighty Throne, all this is like a tiny ringlet lying in a vast plane.

That shows the difference between God Proper and His Creation.

GOD'S ETERNAL COMPANY

So, we are not created but to remember God Himself continually, not only before our death, but even after as well. We are certainly going to meet Him there, and keep in His company for ever in that Afterlife, *if destined to win the Heaven instead of Hell.*

That is the net result of our Faith in God and the Afterlife.

OF COURSE, NO FAITH WITHOUT ACTIONS SUCH AS:

1. Testifying Article of Faith;
2. Offering Five Prayers a Day;
3. Giving Alms to the Poor;
4. Pilgrimage to the House of God.

Truly Yours,
